READY ROOF

Premium Roof Underlayment

Save time with easy handling, anti-slip, superior synthetic material that provides an air, water and vapor barrier. It's even printed for recommended overlap and nail pattern to speed installation for any pitch.

- Recommended for all pitches
- 4-layer synthetic with anti-slip on both sides
- High tear strength, resists wind blow off, printed with nail pattern for easy installation
- High temperature rated for use with all roofing materials
- Convenient 10 sq. rolls (4' x 250')
- Packaged in cradles, with pallet covers, for easy indoor/outdoor storage
- UV resistant up to 90 days
- Compatible with all roofing fasteners
- *always comply with state and local code enforcement
- Compatible as an air, water and vapor barrier

READY ROOF

SUPER STICK

READY ROOF® is our top of the line synthetic roofing material designed for the serious contractor who understand that time is money and the faster a job is done without incident, the higher the profit margin.

READY ROOF® SUPER STICK™ **Adhesive Backed Weather Barrier**

- Prevents wind-driven rain
- Provides extra protection between shingles and roof deck
- Lays flatter and will not buckle
- Helps reduce blow-off

READY ROOF® SUPER STICK™

Item # 609

Roll Size: 2 Square 4'x50'

Brand your construction business with specialty printing.

Not only does PCI offer premium quality fabrics, PCI will expand your branding wall-to-wall at every construction site. It's simple to build your reputation with affordable specialty printing on everyday orders. Please allow 14 to 21 days for delivery of special orders items.

INSULATION FABRIC

Quality From The Very Start.

Today's complex new home designs, energy-efficiency standards and consumer demand for more sustainable options require flexible, high performance solutions.

PCI Industrial Group, the nation's largest provider of Net & Blow fabrics, offers a wide range of construction fabrics for insulation, moisture barrier and soundproofing.

Complex Designs - Simplified Installation.

Insulguard, PCI's Premium Insulation Fabric supports blown-in insulation in any wall, ceiling or floor joist application.

Available in three construction grades, available in ready-cut sizes for fast application across walls, around windows and doors.

XNET & ZNET

XNET Insulation does not rust or retain moisture and once installed, it provides easy access to a structure for expansion or repair. Also as a backer to hold wet spray as well as the temporary face before installing sheetrock. XNET is 1/4" opening.

XNET Sizes:
4' x 250'
8' x 250' (folded)
12' x 250' (folded)

ZNET Insulation offers the same advantages over traditional insulation supports as it's sister product XNET. ZNET is available in an 1/8" opening and is advantageous for jobs where more support is needed.

ZNET Sizes:
4' x 250'
8' x 250' (folded)
12' x 250' (folded)

VAC SAC

REMOVAL VACUUM BAGS

HOUSE WRAP

Stops air movement through walls to help provide a more energy efficient home.

Helps protect against strong winds and rain that can penetrate through the cladding. Also allows moisture vapor to pass through to help promote drying in walls which helps prevent growth of mold and mildew.
